NEW TECHNOLOGY

DualEnroll

The 1818 Program launched its new registration software, DualEnroll, in fall of 2023. So far, the software has been a success and we've seen vast improvement in the registration process for students.

Some of these improvements include:

- user-friendly interface
- easier login/account setup process
- integrated parent consent form
- new communication and texting features
- instructor roster management
- and more...

Moving forward, we'll be continuing the use of DualEnroll, expanding its use to instructors and program administrators. Added features will include the administration of syllabus collection, course renewal, and site visit observations directly through the site.
