CEDAR Conclusion!
*High Yield Resources
for Educators*

There are many high yield and succinct resources from evidence-based sources to support medical and biomedical educators. Check out our CEDAR conclusion for the curated resources below!

[Annotated Bibliography of Journals for Educational Scholarship](#): A compendium of journals which publish educational scholarship, developed by the AAMC Medical Education Scholarship, Research and Evaluation section.

[Academic Medicine Last Pages](#): A collection of nearly 200 one page infographic style publications explaining key topics. Looking for a last page on a topic? [Request](#) to search our database!

[Academic Life in Emergency Medicine](#): A virtual resource focused on community building and career development offering an array of resources. Their [library](#) offers free books and blog posts.

[Best Evidence in Medical Education Reviews](#): An international group which develops evidence informed, published literature reviews.

[Dr-Ed Listserv](#): An electronic discussion group to facilitate information and resource sharing among medical, biomedical, and health professions educators.

[Just in Time Teaching Tools App](#): A free phone app developed at the Zucker School of Medicine at Hofstra/Northwell offering evidence-based, succinct teaching tips for classroom, and clinical educators.

[Journal of Graduate Medical Education Rip Outs](#): Brief publications for quick reading, with a specific problem or challenge, key evidence and best practices from the literature, and clear action steps.

[MedEdPearls](#): A series of more than 65 blog posts on applied topics developed monthly by the Health Professions Educator Developers on Educational Affairs and published on the Harvard Macy Institute Community Blog. *[Type MedEdPearls into the search box in the upper right hand corner.]*

[Medical Teacher Twelve Tips](#): Series of publications offering twelve key evidence informed tips to educators on core topics.

[The PAPERS Podcast](#): A podcast produced by the Unit for Teaching and Learning at Karolinska Institutet discussing the key points of a medical education article in less than 30 minutes.
